Last Wednesday S. W. Potter lost a valuable horse by its falling on the side walk near his home and breaking the bone of one leg and shattering the kneecap. The horse had gotten loose and was running about in play and as it came onto the concrete sidewalk the horse slipped and fell with the result stated. Mr. Potter paid \$240 for the horse a few years ago and it was worth at this time about \$150. The life of the horse could have been saved but the leg was in such a bad condition that it would have cost much time, trouble and money to have cured the injured leg and it would have been a badly crippled horse at the end. Mr. Potter thought best to settle the whole matter by having the horse killed, which he did.

You can have a splendid appetite, perfect digestion and sound, restful sleep by taking Tanlac. Craig's Pharmacy.

The Standard Oil Company has been working for over a week erecting the buildings and laying foundations for their tanks at the old stove mill yard north of the T. C. depot. From present indications one would expect them to be ready for delivering oil to dealers of this section within a few weeks. There are now two large tanks on the side track waiting to be unloaded for the plant. The Standard Company will run a delivery motor truck for delivering to the merchants in town and nearby villages. The establishment of this service here should reduce the cost of oil and gasoline a few cents on the gallon, and doubtless will.

Tanlac is unquestionably the most widely talked of medicine in the world today and those who once use it invariably buy it over and over again and tell their friends of the splendid results they have derived from its use. Craig's Pharmacy.

McKinley Fields and Will Stone have purchased the Electric Shoe Shop turned over to Martin Hale when Mr. Franklin left for California last week. He is a capable work man and there is every reason to expect him to carry the business to a successful issue.

Mrs. Harrison and children went on to Allardt for a visit of a few days with her father, Bruno Gernt. They plan to return about July 1. There was considerable road discussion that showed very clearly how eager Fentress county people are to have the Dixie Short Route completed and surfaced. Mr. Tollett assured them Cumberland county is in sympathy with the idea but gave them to understand the utter impossibility of this county doing anything really effective at this time. He assured them that the surfacing would ultimately have to be done by Cumberland and Fentress counties without state or Federal aid.
